WELCOME

The last time I put a programme together it was way back in October last year. To finally be back at home and watching football is fantastic. A lot has changed but a lot has stayed the same.

Want to start by saying thanks to everyone who has worked behind the scenes to get the ground read for the season. This is a thankless task but going forward we need more people to step up and help out at the club, if you'd like to get involved let yourself know to a club official. Any help is very much welcomed.

On the football front we start fresh in a new league, a lot of old Yorkshire rivalries will be renewed, less travelling but I think it will be a very competitive league, expect the north east sides to be strong. On the team front, manager Chris Hilton has done a sterling job keeping the team together with only one player leaving. One player to watch out for is recent signing Nate Croft. As for pre season results, personally I don't read too much into results, it's about getting match fit, lets get behind the team this season and make sure we are the 12th man

Enjoy the game

Richard

NEXT UP

PRE SEASON FRIENDLY

CHESTERFIELD XI

5TH AUGUST 7:30PM KICK OFF

Message from the Chairman

Good evening, it was great to be back playing at the Eco-Power again on Saturday and to see old friends and supporters coming through the gates. I was pleased with the performance from our team who have had a disruptive pre-season for one reason or another with players missing, they showed good discipline against a good Conference North team in Spennymoor Town it was a pity we got punished in the last five minutes of the game and a draw was the least we deserved.

Chris has been working hard to bring in new players and I am sure there will be more to come before our first league game there is still some silly money knocking about at our level and even the Spennymoor directors were saying they have found recruitment difficult this summer and by their admission they have plenty of money. I think when everybody is fit and available, we have a squad that can be competitive again this season.

I hope you could all appreciate the small improvements we have made to the ground and if anyone has any suggestions that might make your matchday experience even better please feel free to tell Roger, myself or indeed any committee member.

Enjoy tonight's game thank you for your support and have a safe journey home.

Graham Furness

Meet Today's Visitors

As one of the first football clubs in history, Sheffield Wednesday has a rich tradition. They played in the Football Alliance in the years 1889-1892 until becoming a member of the Football league in 1892. Since then, Sheffield Wednesday, have won the Division One in England four times (1903, 1904, 1929 and 1930). The club has also earned three FA Cup titles (in 1898, 1907 and 1935) and one Football League Cup title (in 1991).

Sheffield Wednesday is founded in 1867 as Sheffield Club (the year of establishment is not fully agreed on, another suggestion is 1857), and is one of the oldest football clubs. If the foundation is set already in 1857, it would mean that Sheffield Wednesday would be the oldest existing football club, half a decade older than Notts County.

The club actually existed earlier as a cricket club – The Wednesday Cricket Club was founded in 1820. The earliest documents tell that the first match between two clubs ever was played in 1857 between Sheffield and Hallam Football Club (Sheffield won with 2-0). Another early football match that is documented is Sheffield against London twice, in 1866 and in 1871. During this time the rules of the game was not set and differences occurred in the north and south. In the first meeting London won, but in the second meeting, which was played under Sheffield rules, Sheffield would win.

In 1882, the club was parted in two different sections: cricket and football. It could also be claimed that Sheffield Wednesday should be separated from Sheffield Club and in this case the establishment should be dated to the year 1867. The club established in that year were originally called The Wednesday until a change of name in 1929.

Recent History 21st Century – Main Points

Relegation to League One, Peter Shreeves remained at Sheffield Wednesday for the 2000–01 season as assistant to their new manager Paul Jewell. But Jewell was unable to mount a promotion challenge and he was sacked the following February with the Owls hovering just above the Division One relegation zone. After another bad start in 2001–02, he handed the reins over to assistant Terry Yorath. Wednesday finished just two places above the Division One relegation zone and the only bright spot of the season was a run to the semi finals of the League Cup.

Yorath resigned in October 2002 after Wednesday made a terrible start to the 2002–03 season, and in came Hartlepool manager Chris Turner – a former Owls goalkeeper – as his successor. Turner made a big effort to rejuvenate the side and there were some impressive results during the final weeks of the season, but a failure to beat Brighton in the penultimate game of the season condemned them to relegation.

Before the start of season 2003–04, local nightclub and casino owner, Dave Allen swapped his directorship role with Geoff Hulley to become chairman. Turner was optimistic of an immediate return to Division One, but this was not to be. Wednesday finished 2003–04 in 16th place in Division Two, with the lowest goals tally in the division (48). It was the lowest ebb of the club's history, rivalled only by the 1975–76 season, where Wednesday finished in 20th place in the same division with the same number of points as in the 2003–04 season.

Return to the Championship - Wednesday Lift the 2005 League One Playoff Trophy
Sturrock revitalised Sheffield Wednesday's fortunes and they finished fifth in League One at the end of the 2004–05 season, qualifying for the promotion playoffs. They defeated Brentford 3–1 on aggregate in the semi-finals, moving them into the playoff final on 29 May 2005 at the Millennium Stadium. 41,000 Wednesdayites descended on Cardiff for what was the biggest game in twelve years for the club. They went on to win 4–2 after extra time, goals from Glenn Whelan and Drew Talbot, achieving promotion to the Championship.

On 17 April 2006, Sheffield Wednesday retained their place in the Championship with two matches remaining, with a 2–0 away win at Brighton. They were statistically the best supported team in the Championship; their average home league attendance of 24,853 marginally beat newly relegated Norwich with 24,833.

On 25 June 2007, the River Don burst its bank during a period of severe weather in the area, and the whole ground was flooded with several feet of water. The changing rooms, restaurants and kitchens and boardroom

were all flooded, as well as the shop; many local houses were also affected. The club and ground remained closed for the rest of June. A disastrous start of six consecutive league defeats meant the club spent the 2007–08 season battling against relegation and went into the final match of the season against Norwich City knowing that defeat could send them down. After conceding first, a 4–1 victory in front of 36,208 spectators brought much needed relief.

Season 2008–09 saw Wednesday's first Sheffield derby win double in 95 years and a mid-table finish brought fresh hope for the coming season. The relegation triggered the resignation of chairman Lee Strafford. Stepping into the breach was former Wednesday player and manager Howard Wilkinson, making it clear that this would be an interim measure. In July and September 2010 winding up petitions instigated by HMRC were successfully fought off but in November 2010 a third winding up order threatened the club's existence. The High Court's patience was clearly wearing thin but CEO Nick Parker succeeded in securing a stay of execution after Deputy Prime Minister and Sheffield Hallam MP, Nick Clegg, helped persuade the club's main creditor, the Co-operative Bank, to grant more time to find a buyer. Shortly afterwards, Leicester City chairman Milan Mandarić agreed to purchase the club. The purchase was completed the following month after an Extraordinary General Meeting of Wednesday's shareholders during which 99.7% of shareholders voted to sell the company to Mandarić's UK Football Investments for £1. Mandarić agreed to settle the club's outstanding debts as part of the deal and stepped down as chairman of Leicester City. For the first time in the club's history, the whole of the share base was now controlled by a single entity.

Dejphon Chansiri Era - On 29 January 2015 the club announced that an agreement had been reached between Mr Mandarić's UKFI Limited and Thai businessman Mr Dejphon Chansiri to acquire 100% of the club's shareholding. At a press conference on 2 March 2015 Mr Chansiri, whose family has a controlling interest in the Thai Union Frozen Group, announced that he had purchased the club for £37.5m and was aiming for promotion to the Premier League by 2017, the club's 150th anniversary.

In June 2015 and the appointment of Carlos Carvalho, a widely travelled but largely unknown Portuguese coach. Carvalho became Wednesday's first ever overseas manager/coach. After a patchy start, season 2015–16 culminated in a creditable 6th-place finish which represented a fifth consecutive improvement in league position. Wednesday somewhat luckily defeated the play off favourites Brighton & Hove Albion in the two-legged semi-final but suffered a 1–0 defeat at the hands of Yorkshire rivals Hull City in the final, the club's first visit to the new Wembley.

Season 2016–17 ended in disappointment despite Wednesday improving their league position for the sixth consecutive season. Defeat in the play-offs at the semi-final stage by eventual winners Huddersfield Town. A disappointing start to season 2017–18 led to Carlos Carvalho leaving the club on Christmas Eve, reviving painful memories of Derek Dooley's departure 44 years earlier. Carvalho's replacement was Jos Luhukay. His first match in charge was a derby at Bramall Lane against high-flying Sheffield United, but against all expectations and despite having a man sent off, the team achieved its first clean sheet of the season.

Results were mixed under Luhukay and in season 2018–19, after a particularly poor run, he was sacked in December. His replacement was the experienced Steve Bruce with four promotions to the Premier League as manager under his belt. After Wednesday agreed to allow Bruce to conclude a family holiday, Wednesday finished the season strongly and the new season was keenly anticipated, but the club was rocked by the resignation of Bruce and his coaching staff days before its start.

Yet again, Bullen successfully stepped into the breach as caretaker, and former Swansea City and Birmingham City manager, Garry Monk was next to take the hot seat in September 2019. Wednesday entered the second half of season 2019–20 in the play-off positions but facing a possible points deduction after being charged by the EFL with financial irregularities over the purchase of the stadium by Mr Chansiri. The club's form dipped significantly as 2020 progressed, with only 2 wins in 14 games before the suspension of the season in March 2020, due to the ongoing coronavirus pandemic. The season restarted in June, and the team's form didn't improve, with Wednesday losing 5 of their last 7 games to finish a disappointing 16th, from 3rd on Christmas Day.

The threat of the points deduction hanging over the club finally came true, as on 31 July 2020, the EFL deducted 12 points of the club's points total for the upcoming 2020–21 season. This was later reduced to 6 points as the season was underway, on 4 November.

The Big Interview

Media Manger Adam Allcroft headed to the Stocksbridge Park Steels training ground to talk to manager Chris Hilton ahead of the news.

Adam Allcroft: We're a few weeks into pre season now how do you think he's been going so far?

Chris Hilton: I can sum it up in one word, frustrating. We have five or six missing every single game and it's not the same five or six, it's different every game so it's very hard to get any team together or what you think the start eleven is on the pitch at the same time so yeah, frustrating.

AA: So far Stocksbridge are yet to get a win in pre-season, is that concerning going into the new season?

CH: No not for me. Some managers build their pre-seasons on winning games which we don't. Our pre-seasons are built on fitness levels and getting ready so that we are at peak condition for the 14th when the season starts. Yes it's nice everybody wants to win every game but we try and make different games difficult for different reasons so no, winning and losing is not be all and all as long as we are improving each game but sadly this pre-season with having so many missing we haven't been improving.

AA: One thing that's notable about the squad is that it's not changed much since last season. Is that a conscious decision to try and keep stability considering many non-league sides have a lot of turnover in their playing squad?

CH: A bit of both really. These lads were in the play-offs the season before so we don't need big changes. We do have to bring the right people though. We tried to sign we tried to sign a couple before pre season started but unfortunately the deals didn't come off and we looked at a couple of others but they've gone to teams higher up which is fair play to them, they are trying to better themselves. It's difficult out there at the moment as you can imagine there's a lot of clubs fighting for players. Things will change again over the next month or so when squads are set out and people realise that they may not be starting we may pick some up. Vice versa, we may lose some as well. We've kept what we got because we know what we've got and we'll see what we can add to it.

AA: A question the fans have been asking is are we getting any new players in and when might we see them?

CH: Well we just signed Nathaniel Crofts tonight which will be announced in due course. He's just come back from America, he's a winger, we had him before, he's an excellent player. We're looking at 2 or 3 more so yeah we're out in the market, we are looking for players. I think we need to bring a couple in which we wanted to do anyway before pre season started as I said in the question before so no we're not trying to hide anything it's just bringing the right ones in.

AA: We saw a trialist in the match against Maltby and Stockport Town but he didn't feature on Friday against Maltby. Is that not a move that's happening?

CH: I know he's been playing some game time for our second team as well so I believe last week that's where he was.

The Big Interview

AA: We've had a massive change to the league structure which means a lot of different teams compared to last season and the season before. What will this mean for Stocksbridge this season?

CH: It's good that we're playing different teams as for the last four or five years we've been playing the same teams week in and week out, I think that side of it will be good. I think this league will be tougher than the last league, that's no disrespect to the teams that were in the league with us last year. There's some big teams in this league. Travelling wise is better for us, I think it's about 1,000 mile a season less now and hopefully we'll get more supporters through the gate because there's more local games. It's good for us moving into this league so fingers crossed we can do it some justice by winning some games.

AA: Are there any particular teams that we should be keeping an eye out for that could potentially be challenging for promotion or that we're going have a particularly tough fight against?

CH: Well I would have thought the five Newcastle teams are going to be strong. Doesn't matter whichever Newcastle team you play for from whichever division, they have got good and strong teams so I would think about them. The likes of Worksop and Pontefract teams as well. There's some big teams in there and we're looking forward to playing them all.

AA: Obviously because there's been such a gap since our last fixture we didn't get to face everyone last season, we're not really sure which end of the table we're going to end up at, where do you think we'll end up landing?

CH: It's difficult as I've said in pre season we've not won any games and people forget that obviously with the Emley game that we've just played, they start their season this Saturday while we're three weeks away. Their season finished well after ours finished so them four games have been our first four games in eight months. We will do what we always do, we will strive to be in that top tento start with and then we will strive to push on from there for play offs but it'll be difficult. Let's see how the first couple months ago, pick up as many points as we can and then we'll take it from there.

AA: It was a shortened season last time but was there anything in particular you were able to learn from it going into this season?

CH: No, not really. The players were frustrated, I was frustrated. It was stop start, players missing. The season before, we learned a lot from the group. It was a new group together and we learned a lot. But last season for us it was just difficult. Difficult all around to get any rhythm and to get anything out of it. It was no good, end of.

AA: And finally, it's something a lot of people are asking, are you going to end the FA Cup curse and win in the tournament this season?

CH: Hahaha, brilliant. Here's the dreaded question again. Yes, we'll win in the FA Cup this season.

DID YOU KNOW

The most goals scored by a Steels goal in a single game was Paul Jackson in the 17- 1 against Oldham Town which is still a FA Cup record.

The most league goals in a single game scored by one player is 4 and that's been done on 4 occasions by, Trevor Jones, Gary Hurlestone, Joe Lumsden, two of those players are in today's squad.

Reserves 21/22

The reserves play in the EV2 Sportswear Sheffield and Hallamshire County Senior League Premier Division, the side that provides a potential next step up into the first team has been an ever-present club in the league structure. The club have been Premier Division runners up on three different occasions in 2006/7, 2011/12 and most recently in 2017/18. They will be looking to push back into league title contenders this campaign.

Once the league publish fixtures we will publish in future programmes and on our website. Below is recent photo taken from a pre season friendly against Sheffield Lane Top thanks to Peter Revitt.

STEELS LOSE AT EMLEY

Emley 2-1 Steels

Match report by Adam Allcroft

Stocksbridge came out of the blocks like their feet were on fire and almost in the lead after just a minute. A quick corner routine completely dumbfounded the Emley defence, allow the Steels to loop in a ball from the left. Tom Whiting was there to head it at the far post but Emley keeper Kelly was able to claw it out.

The Steels had all of the ball and all of the chances in the first part of the first half. Reece Fielding made a rare venture forward and it almost paid off for him as he got clear in the box but his touch was too heavy and the chance went. Lewis Whitham twisted his defender out of shape on the left hand side, but his shot went out of the stadium and into the car park. Stocksbridge should have been ahead in the 14th minute. Whitham's cross was good and when the Emley defender missed his head, it landed at Joe Lumsden's feet in the centre of the box. Unfortunately, the striker hit it over when it seemed like a goal was coming.

It continued to be all Stocksbridge as they had most of the ball but they lacked that final ball or touch to get the goal. That's why it was frustrating when the Steels finally did get in the back of the net only for it to not count. The ball was hit down the right side and Whiting appeared to keep it and knocked it into the six yard box. The Emley defence were statues as they appealed for it to be a goal kick and realising the situation, Ruthven ran in and knocked the ball in. Unfortunately, the referee decided it had gone out and there was no goal here.

Towards the end of the half, Emley started to show some teeth. They had a header go over after a well hit free kick into the box and perhaps could have taken the lead after some great play gave their winger lots of space in the box but his shot beat the keeper and post, keeping it goalless going into the second half.

While the Steels did have an appeal for a penalty early in the second half when Lumsden went down in the box, Emley did grow into the game and have their chances in the second half. They really should have scored when their forward went clear. Their 9 was clear on the right, but the forward decided to go for glory himself and hit it wide and over.

Emley did get the goal though. They had a free kick close to the box after numerous Stocksbridge fouls on the right. Metcalfe struck it towards the near post and it found its way in. They could have had a second after some nice play gave their No. 2 some space on the right of the box but thankfully, his powerful shot went past the keeper and once again, the far post.

Stocksbridge showed some threat at the other end though. Whiting was lively throughout and he hit the side netting and Whitham had a free kick which trickled just wide. The closest Stocksbridge came was when a free kick was headed back into the danger area but Ruthven hit it wide from the centre of the box. Then Emley would punish Stocksbridge and get their second of the game. A great ball from the Pewits split the Stocksbridge defence and Bennet ran onto it and tucked the ball into the bottom corner of the net.

Stocksbridge did get a consolation. The Steels got another free kick and Ruthven stepped up. He hit it well but it was the deflection that took it into the back of the net. That would be one of the final actions of the game as the referee blew for full time just a few minutes later.

MOTM: Ross Goodwin

Steels Line Up: C.Fielding, Slater, Finlaw, Ludlam, R. Fielding, Whiting, Goodwin, Mangham, Lumsden, Whitham.

Subs: Ruthven (on for Mangham), Kenyon (on for Goodwin), Thompson (on for Lumsden), Errat-Thompson

STEELS GIVE VISITORS A REAL SCARE

Steels 1-2 Spennymoor

Match report by Adam Allcroft

Stocksbridge Park Steels fell to a 2-1 loss to National League North Spennymoor Town after conceding twice in two minutes. Joe Lumsden gave Stocksbridge the lead in the first half after finishing the second time around following his first effort being saved. However 39-year-old skipper James Curtis equalised with a header after a well worked corner routine and they got the win a minute later when Rob Ramshaw headed in from another corner.

At first it seemed like it was going to be a very open game. Spennymoor went forward straight away with a long ball being played to Robert Ramshaw who flashed the ball just wide. They continued to be lively early on with Mark Anderson having a weak shot saved by Ed Hall and Glenn Taylor probably should have scored when he had space in the centre of the box but thankfully he steered the ball wide.

However Stocksbridge did show some attacking threat in the early part of the game as well. The crowd urged Sam Finlaw to shoot when he found himself in space and he did though the powerful effort went over. Nathaniel Crofts was a pain for the Spennymoor defence throughout but when he got enough space for a shot, it went wide. There was some good play after Lumsden ran through the defence without being challenged. He played the ball to an onrushing Ross Goodwin whose shot was straight at the goalkeeper.

Spennymoor did show their extra quality as the game progressed as they took control of the game. Stocksbridge weren't able to get the ball out of their own half for very long, if at all. However the defence remained solid to limit The Moors' chances. The biggest chance for Spennymoor came when Trialist 16, who was lively throughout, robbed the ball from Rob Ludlam and went clear on goal. Hall came to the rescue with an impressive save though, continuing the good form he has shown throughout pre-season. The Moors could have had a penalty when Jason Kennedy went down in the box, but it wasn't given.

It was against the run of play when Stocksbridge scored but they wouldn't have cared. Crofts once again caused issues when he got on the ball and played it through to Lumsden. He carried the ball a bit before shooting though it was initially saved. The ball fell back to Lumsden though and on the second attempt, he fired in and gave the Steels the lead going into half-time.

In the second half, it was all Spennymoor. They kept the ball for what felt like forever and worked hard to make the breakthrough. But they struggled to create clear cut chances, a credit to the Steels defence. In fact, it was Stocksbridge who looked deadlier as when they went forward. Lumsden's teasing pass was cleared on the goal line and Ludlam whistled a shot just wide after Lewis Whitham's free kick was cleared. Spennymoor had the biggest chance to equalise when they got a penalty. Their wing back was tripped by the trialist and the referee took a second before giving the spot kick. Glen Taylor stepped up for The Moors but smashed it against the post, keeping Stocksbridge ahead for now.

Spennymoor remained frustrated and would have thought themselves lucky when Reece Fielding's header deflected into the goalkeeper's arms. But eventually, they got their goal. It was a well worked short corner that was then whipped in and it was truly Captain fantastic as Curtis headed in despite Hall getting a hand to it.

A minute later, Spennymoor had the lead and the win. It was another corner but far more traditionally taken. It went to the far post and was headed across goal for Ramshaw to head it and get the expected, if far more difficult than anticipated, win for Spennymoor. The net. That would be one of the final actions of the game as the referee blew for full time just a few minutes later.

MOTM: Joe Lumsden

Steels Line Up: Hall, Trialist, Trialist, Finlaw, Ludlam, Fielding, Crofts, Goodwin, Lumsden, Ruthven, Whitham

Subs: Whiting (on for Lumsden), Slater (on for Crofts), Mansell (on for Goodwin), Mchale

STEELS U18's 21/22

The youth team is all new for this season and will be managed by Mark Fretwell. The youth team will play in the Meadowhall & Bud Evans DB Sports Sheffield & District Sunday Football League.

The league currently have 46 Clubs who have applied providing 58 Teams across the Age Groups. The league are really encouraged by the number of Teams we have, which is more than last Season.

The U18s will in all likelihood be made up of 4 Divisions. League Secretary John Stainrod is looking at the Constitution of the U18 Divisions and will make an initial announcement over the coming weekend.

They are also currently looking at how to best accommodate the remaining Teams across the other Age Categories.

They will make a further announcement next week. Please direct any queries about the League Constitution to League Secretary John Stainrod.

Once the league have published all that we will put fixtures and table results in our programme as well as up to date news on our website.

STEELS U18's MAJOR SPONSOR

The club are pleased to be able to announce our new sponsor for our under 18 squad it's already been announced via the Hero magazine website and media in the USA

Roger Gissing Commercial Manager at the club said we have come a long way in a short time at Stocksbridge and to have such a profile that is now attracting International businesses is amazing, below is an article from Steele who has kindly offered to support the financial side of running the under 18s, for the next 2 seasons

My name is Steele and I am a musician, and an obsessive of football (or soccer, ha-ha). I was born, raised, and reside in New York City America, I have grown up playing in bands, most notably a group called The Britanys.

We spent a lot of time in the UK, and while on tour I discovered the Steels Football Club, I had previously been in touch with the club about purchasing a Steels jersey, due to the striking similarity of our names. In the time since, I have transitioned from behind the drums to the front of the stage.

My new project, Steele FC, is a solo venture with inspiration drawn from New Wave and Manchester, My live band is composed of my best friends and Sunday league teammates (one is a Yorkshire boy!). We play against teams with other New York based musicians, and when we aren't playing music or sport, we are arguing about it in group chats.

The other month, from a bolt from the blue, I decided that I wanted to find a way to sponsor a shirt for The Steels, It felt like a shot in the dark, but when I spoke on the phone with the club, they let me know there was an opening to sponsor the Under 18 side, I was thrilled.

To be able to provide kits for the academy of a community-based club is a very special feeling, I am excited to be a part of the long lineage of musicians sponsoring local teams, and am honoured to be able to support a youth side, I know how important sport can be- playing is great for a clear and healthy mind, and is also one of the greatest unifiers we have. The love and passion for the game allows strong bonds to be built and helps us express and process emotions in ways we may not be able to otherwise.

Playing team sports has taught me crucial life lessons in my childhood and has been an incredible vehicle for deepening my social bonds as an adult. There's an unexplainable magic that accompanies team sports, and something so special in how deep and universal the undying love for football is. I have learned so much about life and people and other cultures, with football as the vehicle.

Not to be painfully unoriginal, but it really is more than a game, In addition to playing and supporting, I have spent time as a youth coach for school teams here in NY, and I am so happy to have found a way to assist and support a youth program abroad. This is truly a dream come true, and I can't wait to visit the ground and cheer on the squad soon!

--------	------------------------------

Next Away Game

Steels first away game of the new season is the short trip up to Ossett United. Now older supporters will remember good rivalries between both Ossett Town and Ossett Albion. Now both teams have merged and play at Town's former home of Ingfield. Located in the town centre. For us it will one of our closet games of the season so it will be good to see plenty of fans make the short trip up.

The last time we played each other was back when they did a reshuffle in the 2018/19 season. We lost 3-0 the last time we visited back in December 2018 in front of 282 fans and drew 1-1 in April 2019 at the Eco-Power Stadium with Rory Coleman scoring for Steels. Worth mentioning Jordan Lemon scored an own goal that day to give Ossett the lead, again in front of a good crowd of 225. I'm sure both teams would be happy to see 200+ fans at both fixtures.

With COVID still around please keep eye out for any last-minute announcements. If you are unwell do not travel and follow your local authority guidelines.

footballfoundation.org.uk

Stocksbridge Park Steels Pen Pics 2021/22

ED HALL (GOALKEEPER): Hall is Stocksbridge's number one goalkeeper. He has struggled with injuries recently but after putting those problems behind him, he's looking forward to showing why he is one of the top rated keepers in the Northern Premier League Division One.

TOM CROSBY (GOALKEEPER): Crosby is the back-up goalkeeper and is dual registered with Retford United. A solid shot stopper that is very capable when called upon.

JORDAN LEMON (DEFENDER): Lemon is a right-back who has been featured in Team of the Years before. He signed for the Steels at the end of 2018 from Matlock Town and has been a regular in the first team ever since.

MICHAEL TRENCH (DEFENDER): Left-back Trench came to Stocksbridge as a winner after winning the NCEL Premier Division title with Worksop Town. He'll be hoping to keep that winning feeling going into this season with the Steels.

LIAM MCFAYDEN (DEFENDER): Club captain who makes his return to Stocksbridge after last season's sabbatical. A very familiar sight at the Eco Power Environmental Stadium who fans can't wait to see back in action.

REECE FIELDING (DEFENDER): The 22-year-old centre back came through the Doncaster Rovers academy and made his debut as a 17-year-old in the Checkatrade Trophy. After a stint with Ossett United, he is now a regular for the Steels.

ROBERT LUDLAM (DEFENDER): Ludlam is a versatile defender who can play across the defence and also in midfield. Wherever he plays, he adds plenty of chemistry to the team and will want more time on the pitch this season.

ROSS GOODWIN (MIDFIELDER): Goodwin is coming into his third season with Stocksbridge after signing for us in 2019, though hopefully this will be a season he gets to complete. The central midfielder is known for his tough tackling.

SAM FINLAW (MIDFIELDER): Finlaw joined last season from Staveley Miners Welfare but only made one appearance before the season was ended prematurely. The central midfielder was highly regarded in Staveley and will be showing why at the Eco Power Environmental Stadium this season.

JOSH NODDER (MIDFIELDER): Nodder is an exciting winger with a penchant for scoring screamers at this level. He came through the Rotherham United academy but has been a familiar sight in the local non-league scene having played for Maltby Main and Handsworth before going to Stocksbridge.

TOBY KENYON (MIDFIELDER): Kenyon signed for Stocksbridge last summer after being part of the Sheffield Wednesday U18s team that achieved the double. The central midfielder will be looking to become a regular in the first team this season.

NATHANIEL CROFTS (MIDFIELDER): Crofts is a familiar face to Stocksbridge fans as he was on loan at the Steels from Sheffield United in 2016. Since the last time the winger was at the Eco Power Environmental Stadium, he has gone through college in America and was drafted by MLS side Toronto FC.

SCOTT RUTHVEN (STRIKER): Ruthven has been a regular fixture at Stocksbridge for several years. He is usually played as a striker but last season we saw a lot of him in central midfield where he impressed. Grabbed the headlines after scoring a great free kick against Stalybridge Celtic in front of the BBC cameras last season

JOE LUMSDEN (STRIKER): Lumsden returned to Stocksbridge last season and despite some injury issues, he showed to the fans he's one of the most prolific strikers at this level. He'll be hoping for an injury free and goal full season this year.

LUKE MANGHAM (STRIKER): Mangham had been one of manager Chris Hilton's most coveted targets when he signed for them in 2017. He has shown why he was so coveted ever since by scoring regularly when used as a striker.

LEWIS WHITHAM (STRIKER): Whitham is one of Stocksbridge's own after coming through the club academy. Always able to take a man on, the young forward is always likely to make something exciting to happen when he's on the ball.

TOM WHITING (STRIKER): Whiting is another signing that was made just before the season was forced to end due to the pandemic. The lively striker broke records when with local team Redmires FC and will want to replicate that form with Stocksbridge.

CHRIS HILTON (MANAGER): Hilton is one of the longest serving managers in non-league football having taken the Stocksbridge job in 2014. He previously served as the manager of Worsborough Athletic for four years. Before becoming a manager, Hilton had played for Frickley Athletic, Sheffield FC and Belper Town. He famously said in an interview that his career was ended by Jamie Vardy after trying to mark him in a 4-1 loss.

LEE THOMPSON (ASSISTANT MANAGER): The assistant manager who still sometimes comes on as a player if needed. He came through the Sheffield United academy but made most of his appearances at Boston United where he played for now Sheffield Wednesday coach Neil Thompson. Coincidentally, it was under Neil's management where Lee's son Declan made his debut for Sheffield Wednesday at the start of the year. A video of Lee watching his son make his debut for the Owls went viral at the start of the year.

RYAN LAIGHT (FIRST TEAM COACH): First team coach Ryan Laight return full time to the club, after returning last season on a semi regular basis. Laight was previously Hilton's assistant between 2015 and 2018 until work commitments with Sheffield United caused his departure. Ryan is an A-Licence coach.

JAMIE GREEN (GOALKEEPING COACH): Joined the club during 2021 as the clubs goalkeeping coach to work along side long serving Nigel Hanks.

NIGEL HANKS (GOALKEEPING COACH): Night is respected coach with years of experience, Nigel is a well known character in local football and was part of the Sheffield United setup.

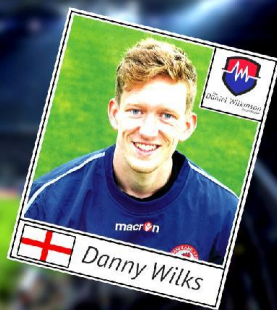

SAM EWANS (PHYSIO): Sam has been with the club for over a year and is currently doing his degree at Leeds Beckett University.

GARY WARD (KITMAN): Gary Ward is the clubs long serving kit manager, having first took up the post under Wayne Biggins. Gary has played disability football for Sheffield FC, Derek Dooley, Sheffield Wednesday, Sherwood Colliery

The
Daniel Wilkinson
Foundation

*Providing Screening and Defibrillators to
prevent Sudden Cardiac Death in the young*

The Daniel Wilkinson Foundation is a charity set up in memory of Daniel Wilkinson who died in 2016 aged 24, while playing the game he loved, from an underlying heart condition called Arrhythmogenic Right Ventricular Cardiomyopathy (ARVC).

Dan played football from an early age and joined Hull City AFC when he was 10, earning a professional contract aged 18. Loughborough University followed where he completed a degree in Accounting and Financial Management while playing non-league football. He was an athlete who enjoyed the gym and took his health and nutrition very seriously. He lived life to the full and had so much ahead of him.

Other than feeling light-headed on a few occasions in the month before he died, he had no symptoms!

SUDDEN CARDIAC DEATH IN THE YOUNG (SCD)

- SCD is the leading cause of death in young athletes during sport and the majority of deaths occur with NO SYMPTOMS or family history.
- ARVC can be found in one in every 1,000 to 5,000 young adults - IF IT IS LOOKED FOR.
- Warning signs may include light-headedness, fainting, palpitations, swollen legs, breathlessness.
- Every week in the UK, 12 apparently fit and healthy young people (aged 35 and under) die from previously undiagnosed heart conditions.
- In Italy, where screening is mandatory for all young people engaged in organised sport, they have reduced the incidence of young sudden cardiac death by 89%.

OUR MISSION

The Daniel Wilkinson Foundation has been set up to raise awareness of SCD and to provide funding towards heart screening, defibrillators and CPR/defibrillator training primarily for grass-roots sporting teams.

Tragedies can be prevented through cardiac screening. It is vital that young people are identified and treated.

Raising Awareness Saves Young Lives

Cardiac Risk *in the* **Young**

Every week in the UK at least 12 young people die of undiagnosed heart conditions. Cardiac Risk in the Young (CRY) aims to reduce the frequency of young sudden cardiac death (YSCD). CRY supports young people diagnosed with potentially life-threatening cardiac conditions and offers bereavement support to families affected by YSCD. CRY promotes and develops heart screening programmes and funds medical research. CRY publishes and distributes medical information written by leading cardiologists for the general public. CRY funds fast track referral, screening and cardiac pathology services at leading UK hospitals.

Revolutionary fire of the future
PANORAMIC FX1 WOOD BURNING

FUTURE FIRES

www.futurefires.co.uk

Futurefires presents a revolutionary design to the world of wood burning stoves- Panoramic FX1.

Panoramic FX1 with its advanced clean-burning technology is a traditional, clean and efficient way of burning fuel which can provide an effective source of heat. It can burn for longer and also comes with an optional multi-fuel conversion grate. Our stoves are easy to operate, clean and can be left burning for several hours before refuelling.

With a captivating and aesthetic design that will not only warm your space effectively but also becomes the centre of attraction of your living room. The elegant elliptical stove design with its extra large viewing window will suit all spaces and stuns from all angles and gives the appearance of a large open fire. And more interestingly, you can select the colour scheme of the front panels to match your decorations and furnishings.

We have designed Panoramic FX1 focussing on it being environment friendly. Our wood burning stoves come with an Airwash system that helps you take much less time when cleaning the stove. The Airwash technology stops the glass from getting tarred so the glass will stay clean even after many hours of usage.

We at Futurefires manufacture wood burning stoves by hand in the UK at our South Yorkshire factory. We make prompt deliveries on the date specified and will inform you prior for delays during peak seasons.

For the most contemporary and stunning wood burning stove on the market contact us now!!

Eco-Power

ENVIRONMENTAL

About Eco-Power Environmental

Eco-Power Environmental was founded in 2012 and has grown to become one of the UK's most innovative waste, recycling and resource management businesses.

Our flagship facilities in Yorkshire and Humberside provide recycling and fuel production services for commercial and municipal waste from across the UK. Both facilities also benefit from on-site rail links providing a highly cost-effective transport option for large volumes of waste, recovered materials and our alternative fuel products.

Through its sustainable fuels subsidiary, Eco-Power Fuels, Eco-Power Environmental provides a range of waste derived fuels to energy intensive industries including cement kilns and power stations.

Our flagship Eco- Power Pellets are produced at our UK facilities and are supplied to customers in the UK and international markets.

We pride ourselves on operating sustainably and responsibly and continue to invest in both our people and facilities in order to provide the highest levels of service to all of our customers, irrespective of their size, location or requirements.
